## Introducing High Country Kölsch

This beer may be new to the tourney but it's definitely a staple in Revelstoke. Perhaps if you've been out and about you've experienced its crisp clean taste at one of the fine establishments that carry it. You'll find it on tap 'almost' everywhere in our gorgeous city. High Country Kölsch is a pale, mildly hopped beer which originated in Köln, Germany and is brewed with authentic Kölschbier yeast. It's the yeast combined with a portion of wheat malt that gives this beer its unique, delicate, characteristic flavour. Kölsch is recognized by its inherent drinkability. It's an excellent choice of beer for a hot summer day!
